**Computer Network and Internet Access Policy Agreement for Property at 11 Hatfield Street, Northampton, MA 01060**

**Disclaimer**

The Internet is a worldwide network of computers that contains millions of pages of information. Users are cautioned that many of these pages include offensive, sexually explicit, and inappropriate material. In general, it is difficult to avoid at least some contact with this material while using the internet. Even innocuous search requests may lead to sites with highly offensive content. Additionally, having an e-mail address on the internet may lead to receipt of unsolicited e-mail containing offensive content. Users accessing the internet do so at their own risk and DIAL/SELF is not responsible for material viewed or downloaded by users from the Internet. To minimize these risks, your use of the Internet at DIAL/SELF is governed by the following policy:

**Access**

DIAL/SELF provides access to the internet via Wireless Network Connection broadcasting under the name of "NTH-Resident" using 128 bit WEP encryption. Upon signing this policy agreement, the Resident will be given a 26 character access key which will allow them to connect a computer using a wireless network adapter. This key should not be given out to others or installed on computers that are not property of, and/or in the control of, the Resident. DIAL/SELF will change the key on a regular schedule, and notify Residents of this in advance when possible.
